

19 June 2011 (Sunday)	
Emerging techniques in CT and MR for cardiac diseases (N101)	Cardiac imaging and interventional cardiology - II (N201B)
Scientific Paper Presentation (N101, N201A, N201B)	
Coffee Break	
Primary Lecture - Coronary plaque imaging by CT - can we identify the vulnerable patient and the vulnerable lesion? (N101)	
ASCI/SCCT Joint Session : Master classes in cardiac CT (N101)	Cardiac imaging and interventional cardiology - III (N201B)
Lunch Symposium (N101) <i>Sponsored by Medtronic International Ltd</i>	Nuclear Cardiology - I (N201B)
	ASCI General Assembly (N201A)
	Nuclear Cardiology - II (N201B)
Closing Plenary Lecture - MDCI evaluation of the coronary stent (N101)	
Closing Ceremony/Prize Awarding Ceremony (N101)	
Hands-on Workshops Technical Exhibits and Posters Presentation	

17 June 2011 (Friday)	
14:00 - 14:30	Pediatric cardiac MRI
14:30 - 15:00	Stress and non-stress cardiac MRI
15:30 - 15:50	Imaging tips in cardiac MRI
16:15 - 16:40	Advances in imaging technique and quantification
16:40 - 17:00	Imaging tips in cardiac CTCA
RMQ/HK/HK/HK/AMF Radiation Protection Symposium (N201)	
14:00 - 14:20	Local, national and global actions to improve quality care and radiation safety
14:20 - 14:40	Advances of radiological exposures from diagnostic imaging
14:40 - 15:00	Essential radiation protection: The role of and actions of referring physicians
15:30 - 15:50	Radiation risks in X-ray imaging: Are we safer now than 50 years ago?
16:00 - 16:20	Radiation doses to the public arising from medical exposures in Hong Kong
16:20 - 16:40	Time for change: Building a radiation exposure history for every patient
16:40 - 17:00	Benefits and effects of radiological exposures for the public: Key facts from the expert
18 June 2011 (Saturday)	
08:00 - 08:20	Optimizing scanning techniques - I (N101)
08:20 - 08:40	New technology in MRI compatible pacemaker
08:40 - 09:00	How to avoid false negative and false positive results from CT
09:00 - 09:20	How to avoid problems in 3T Cardiac MRI
09:20 - 09:45	Optimizing scanning techniques - II (N201)
09:45 - 10:00	Optimization of contrast enhancement in coronary CT angiography: A multivariate analysis
10:00 - 10:30	Scientific Paper Presentation (N101, N201, N202)
10:30 - 10:50	Coffee Break
10:50 - 11:20	Opening Plenary Lecture - Current status of Cardiac CT in 2011 (N101)
11:20 - 11:40	How to measure cardiac volume and flow parameters
11:40 - 12:00	Role of MRI in thrombolysis with iron chelation therapy
12:00 - 12:20	MV velocity measurements in valvular diseases
19 June 2011 (Sunday)	
08:00 - 08:20	Optimizing scanning techniques - I (N101)
08:20 - 08:40	New technology in MRI compatible pacemaker
08:40 - 09:00	How to avoid false negative and false positive results from CT
09:00 - 09:20	How to avoid problems in 3T Cardiac MRI

| After 29 April 2011        | No Refund         |
- I have read and agreed to the important notes set out on this form.
- Signature \_\_\_\_\_ Date \_\_\_\_\_

Cardiovascular diseases are the world's largest killers, and most countries face high and increasing rates. Imaging has evolved from the very basic chest X-rays to a wide spectrum of modalities – CT, MR, Nuclear Medicine, Echocardiography.

Hong Kong is proud to host the 5<sup>th</sup> Congress of Asian Society of Cardiovascular Imaging (ASCI 2011). This major annual cardiovascular imaging congress will bring together world renowned experts and distinguished regional faculties to deliver a most exciting and comprehensive programme. A dedicated symposium of radiation protection focusing on the hot topics of risks, benefits and safety of radiation exposure is one of the highlights of the Congress. International experts as well as distinguished regional faculties in different frontiers have been invited.

**You will no doubt benefit from our comprehensive programme:**

- The "Beginners" – Basic physics, techniques, protocols, reporting, recent trends  
The "More Experienced" – Advanced techniques and applications, recent developments  
For All – Risks and Benefits of modern technologies: Quality issues, Patient Safety and Radiation Hazards  
Case Reviews / Reading with the Experts / Clinical-radiological Interaction  
Workshops – A taste of the newest computer software capabilities

**Don't Miss Out! Register Now!**

### Free Peak & Stanley Tour

With compliments of Local Organizing Committee

#### Pre-registration is required

Date : 17 June 2011 (Friday)  
Time : 2:00 PM

The Organizing Committee is pleased to invite you to indulge yourself in the beauty of Hong Kong's scenery by joining the Peak & Stanley Tour. This is also a good orientation for those first-timer to Hong Kong.

The tour begins with a visit to Stanley Market - the perfect place to buy something special for friends or relatives. The historic lanes in this old fishing village are overflowing with vendors selling classic Chinese artwork, silk collectibles and curios, as well as larger-sized clothing.

Take a scenic ride along the relaxing southern shore to Repulse Bay - the Mecca for the swimmers in summer, before visiting one of the most popular attractions in Hong Kong, the Peak, to enjoy stunning views of the city skyline, the world-famous Victoria Harbour & Kowloon; and towering skyscrapers.

## Highlights of the Programme

### Prof. Stephan Achenbach

- Cardiac CT in acute coronary syndromes
- Coronary plaque imaging by CT - can we identify the vulnerable patient and the vulnerable lesion?

### Prof. Frandics Chan

- How to measure cardiac volume and flow parameters
- MR velocity measurements in valvular diseases
- Post operative assessment of congenital heart disease

### Dr. Ricardo Cury

- Why CMR is the most comprehensive modality in newly diagnosed cardiomyopathy
- Assessment of myocardial perfusion using CT
- Current status of Cardiac CT in 2011

### Dr. John Hoe

- How to avoid false negative and false positive results from CT
- Low dose CT scan in practice

### Prof. Raymond Kwong

- How to avoid problems in 3T cardiac MR
- How to assess for pericardial disease
- CMR protocol and reporting

### Dr. Lawrence Lau

- Local, national and global actions to improve quality care and radiation safety
- Essential radiation protection: The role of and actions of referring physician

### Prof. Tae-Hwan Lim

- MDCT evaluation of the coronary stent

### Dr. Madan Rehani

- Time for change: Building a radiation exposure history for every patient
- Radiation risks in X-ray imaging: Are we safer now than 50 years ago?
- Prevention of radiation injuries in interventional cardiology

## Hands-on Workshops

Hands-on workshops will be held concurrently with the Congress at the Hong Kong Convention and Exhibition Center on 18-19 June 2011. Participants can meet with specialists including renowned radiologists/cardiologists and learn how to make the best use of advanced workstations and softwares to report efficiently and improve their workflow. The registration for the workshop is only valid after full registration with the Congress. Limited seats per session is available on first-come, first-served basis and pre-registration is required. Successful enrollment will be notified separately.
