Greetings from Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair
ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI Joint symposium in Indonesia. After foundation in 2006, the ASCI has been grown up consistently and successfully based on devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint symposium', which is to promote appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the Indonesian Cardiocerebrovascular Society for their warm hosting of this Joint Symposium.

We wish both organizations much progress in the future.

Associate Prof.
Kakuya Kitagawa
Director
ASCI Joint Symposium

Greetings from Congress President

Dr. Muhadi
Congress President

My greetings to delegates and guests of ASCI Joint Symposium with ICS of HOPECARDIS 2019. It is our privilege to host this year's event and work together with experts in their fields. Our commitment as medical professionals in providing high quality cardiovascular care necessitates continuous update on ground breaking cardiovascular research and breakthroughs which form the basis of evidence based practice. The symposium will explore various topics and issues found in the field of cardiology that can be applied also in general practice circumstances.

We sincerely hope that this symposium will deliberate and discuss all the different facets of this exciting topic and come up with recommendations that will lead to a better, healthier, and merrier world.

We wish this event great success.
