Greetings from the Chair of ASCI School

Prof. Whal Lee
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold the ASCI Joint symposium with HOLISTIC APPROACHES IN CARDIOVASCULAR DISEASE 2025 in Jakarta, Indonesia. After the foundation in 2006, the ASCI has grown by leaps and bounds based on the devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School was founded in 2018. One of the ASCI School projects is the 'Joint Symposium,' which aims to promote the appropriate use of cardiac imaging in Asian countries and regions, as well as to foster the exchange of expertise across national borders. We are grateful for the continued support from ICS, which has enabled us to hold this symposium for the sixth time. We hope this symposium will be a great opportunity for all participants to update their knowledge. We extend our heartfelt thanks to ICS for their warm hosting of this symposium and their generous and considerate hospitality. We wish both societies much progress in the future.

Greetings from the ICS President

Dr. Lusiani, SpPD-
KKV, M. Epid

On the behalf of Indonesian Cardiocerebrovascular Society (ICS), we are honored to host the ASCI Joint Symposium with Holistic Approaches In Cardiovascular Disease 2025. Cardiocerebrovascular diseases remain to be one of the leading causes of death in many parts of the world, including in Indonesia. Since its establishment in 1999, ICS has continued to facilitate many health care providers in developing their knowledge and skills regarding the management of cardiocerebrovascular problems. Every year, numerous medical breakthroughs are changing the way we treat the diseases. Therefore, we need to constantly renew and enhance our expertise.

Hopefully, this symposium will help all the participants in gaining the most recent updates on cardiocerebrovascular imaging. We sincerely thank ASCI for their cooperation in this symposium and may both societies continue to thrive in the future.
